Passionately assembled over the past 40 years, this unique collection speaks for itself: it is one of the world's most significant collections of Dalí sculpture and three dimensional artworks.

The selection Maison d'Art will exhibit starting from July 10th, 2019 includes a singular and prestigious selection of paintings, lithographs representing some of the most iconic themes, as well as exemplary sculptures and drawings. The wide collection exposed by Maison d'Art gives us the chance to discover Dalí's universe as imagined and interpreted in his artwork.

Maison d'Art shares the desire to bring people through the journey of “*Dalí 30*”.

This exhibition helps understanding how the artist faced the tradition and how he embodied the change in the artworld through his own innovating mind. The selection leads us to discover the different influences that effected Dalí's work; the importance of the impact that great Old Masters, such as Leonardo da Vinci, Raphael, Vermeer and Velázquez had on the artist's creativity and vision. Salvador Dalí's artworks that will be exhibited at the Maison d'Art Gallery include a wide range of themes and figures, giving the public the opportunity to observe how Dali has been master in reaching the innovation starting from the tradition.
