The beating heart of international creativity is beating these days in Monaco, where *ONE MASTERS*, a leading trade fair dedicated to art, jewellery and design, organised by *Art and Jewels of the World* , has just opened its doors .

Pablo Atchugarry's fantastic olive sculpture

Marina Abramovic's digital project, ft. WSM Agency

The event, hosted in the elegant spaces of *One Monte-Carlo* , will remain open until July 11, offering the public a rare opportunity to immerse themselves in a world of beauty, innovation and cultural heritage.

From the entrance, visitors are greeted by a **spectacular foyer** , featuring iconic works by **Salvador Dalí** , **Marino Marini** , and **Pablo Atchugarry** , three masters who represent the very essence of artistic modernity. At center stage, a large screen broadcasts *Element* , the latest digital project by Serbian artist **Marina Abramovic** , which captivates and engages with its symbolic and visionary power.

Marie Berthelon is responsible for the reopening of the Rouvenat house

Some creations from the Rouvenat maison

The adjective that best defines the fair is undoubtedly "**eclectic**" : every stand, every gallery, every creation tells a different story, blending tradition and avant-garde. Among the absolute protagonists of the jewelry section, **Maison Rouvenat** stands out , with unique pieces that combine craftsmanship and sustainability. Founded in the 19th century by jeweler **Léon Rouvenat** , a designer for the courts of Europe, the house disappeared into thin air during the First World War. Its rebirth in 2022 is thanks to **Marie Berthelon** , CEO and driving force behind the new project: a brand that creates **circular and responsible jewelry** , reusing antique stones and metals, often purchased at prestigious auctions. The result? Breathtaking jewels.

Marietta Vinci Corsini « Maison d'Art Monaco » with works by Stefania Tejada

Artist Adrian Burns with his works on the sea

In the visual arts, **Maison d'Art** , led by **Marietta Corsini** , presents leading artists such as **Adrian Burns** , who seduces the public with his mixed-media seascapes, the result of an approach combining photography and graffiti. Also present are the **MF Toninelli Art Moderne** gallery , the Geneva-based **CKS** , the New York-based French gallery, and the **Boccara Gallery** in Palm Beach, along with London-based **TAEX** , an innovative platform dedicated to **NFTs by established artists** .

The Pseudospheres console

Eric Dellaube

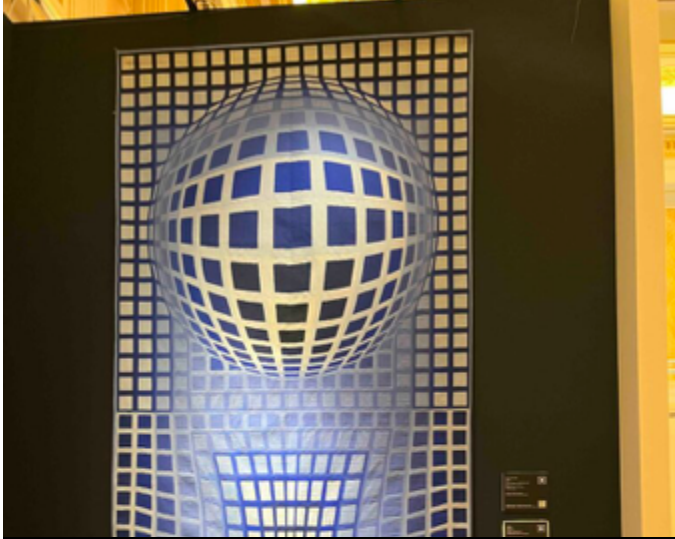

Design is represented by high-impact names such as **Hom Le Xuan** and **David Bitton** , who exhibits the evocative *Pseudosphères* console by **Nadège Mouyssinat** , winner of the prestigious **Bettencourt Schueller Prize 2024**. Bitton also designs an elegant **immersive lounge** , where art and design dialogue in harmony, creating an exclusive and refined environment.

The salon is also a place for dialogue and culture. **On Thursday, July 10** , at **3:30 p.m.** , writer **Eric Dellaube** will present his new book, *Black Picasso Basquiat* , followed at **5 p.m.** by a **roundtable discussion organized by the Monaco Women Network on the theme “ Breaking Boundaries: Women Leaders in the Art World , ”** which promises to offer thought-provoking insights and contemporary perspectives.

ONE MASTERS Monaco thus confirms itself as an unmissable event for collectors, enthusiasts and the curious, a bridge between history and the future that celebrates excellence in all its forms.

Two works by artist Cristiana Fioretti for Maison d'Art

A tapestry painting by Victor Vasarely

A bronze sculpture by Boky Hackel-Ward
